SECOM-D-266
16 August 1977

MEMORANDUM FOR: Acting Deputy to the DCI for the
Intelligence Community

STAT FROM : [REDACTED]
Chairman, Security Committee

SUBJECT : Approval of Selected Recommendations of the Report
of the Security Review Task Force Studying the
Impact of the Moore and Boyce/Lee Cases

1. Reference is made to your note asking what we are doing to implement the DCI's instructions as appended to a memorandum from Robert Gambino to the DCI, dated 23 June 1977, same subject.

2. Through various tasking memoranda, the Community has been tasked to:

a. Provide answers to questions concerning adherence to DCID 1/14 standards.

b. Explore ways to reduce the number of SCI approvals.

c. Report on an appropriate procedure for the exchange of information within the Community on SCI disapprovals.

d. Identify a useful format for a computerized data base to provide periodic management information reports on compartmentation for the DCI. In this regard, Mr. Gambino suggested the issuance of a DCID requiring all SCI accesses be recorded in the Compartmented Information Branch computerized data base. No action has been taken on drafting such a DCID pending Community input to a desired format and comments on the current [REDACTED]

e. Limit breadth and reduce scope of SCI approvals.

3. Even though Mr. Gambino's other recommendations appear to be CIA oriented, implementation by the Community agencies not having such procedures might strengthen their industrial security programs. In

SUBJECT: Approval of Selected Recommendations of the Report of the Security Review Task Force Studying the Impact of the Moore and Boyce/Lee Cases

order to achieve this, the Director of Security, CIA has been requested to provide a briefing on the overall findings of the Security Task Force at our next Security Committee meeting on 7 September 1977, and these recommendations will be given to the members of the Committee.
